Cartwright appoints Glenn Cameron as Investment Consultant

Cartwright, the independent privately-owned pension actuarial, consultancy and administration firm, today announces the appointment of Glenn Cameron as Investment Consultant .

Sam Roberts, Director of Investment Consulting, commented: “The role of the investment consultant is evolving in such a way we have rarely seen before. The landscape has always been complex, but schemes are now dealing with so many more things than ‘traditional’ strategies and portfolio builds. They are now having to consider ESG, cryptocurrencies and, in many cases, getting to buy-out or buy-in. As such, we are dedicated to ensuring we have the best of breed amongst our expert team to guide our clients through these challenges.

“Glenn is a highly experienced investment professional with a proven track record in portfolio management and investment consulting. His broad experience across the asset management industry will be of great value as we continue to enhance our investment capabilities.”

Cameron added: “Cartwright is one of the few truly independent companies in this market. Amongst many other things it means they are not limited by layers of corporate red tape and house views, so can be forward thinking and innovative with their strategies and execution. I’m looking forward to working with the team to guide and empower our clients to better understand and navigate the investment landscape, and, most importantly, make the most of the opportunities that are available to them to deliver better member outcomes.”

Cameron joins from Sanlam Multi Manager International where he provided investment advice and delivered investment solutions to both institutional and retail clients.
